MLOps Engineer | Software Developer | Cloud & DevOps Enthusiast

Skills

***MLOps & Cloud**: RAG, Streamlit, AI Agents, GenAI, MLflow, DVC, AWS (S3, EC2, Lambda, DynamoDB, SNS, Textract), Azure AI, Google Cloud, FastAPI, AWS EKS*
***DevOps & CI/CD**: Docker, Kubernetes, Jenkins, GitHub Actions, ServiceNow*
***Languages & Tools**: Python, SQL/MySQL, JavaScript, Bash, Git, HTML5, CSS3*
***Monitoring & QA**: JIRA, Logging/Monitoring (CloudWatch, Prometheus), Quality Assurance, Change Management*

Education

Cooch Behar Government Engineering College **2018-2022**

- *Bachelor of Technology in Electronics and Communication Engineering, Aggregate:8.5*

Work Experience

Cognizant | *Associate* **Dec'22- Present**

- ***Managed** service orders, incidents, change requests, and technical **documentation** in **ServiceNow**, ensuring accurate tracking and timely resolution of IT service management tasks.*
- ***Planned** and **executed** comprehensive **testing** and **QA processes** by designing detailed test sets, tracking deliverables, logging defects, and ensuring alignment with project requirements.*
- ***Collaborated** effectively with cross-functional teams, including developers, testers, and business stakeholders, to resolve technical issues and deliver high-quality solutions within project timelines.*
- ***Monitored process chains** and maintained detailed **trackers** across multiple operational domains to ensure efficient workflows, identify bottlenecks, and maintain compliance with organizational standards.*
- ***Validated**, cleaned, and **updated backend data** using **SQL queries**, ensuring data integrity and consistency across various databases and applications.*
- *Worked within **Agile development workflows**, utilized **version control tools (Git)** for source code management.*

Projects

Rural Healthcare Diagnosis Assistant (In Progress) | *Flutter, FastAPI, MLflow, PyTorch, Docker*

- *Built a cross-platform mobile app using Flutter to assist rural health workers with AI-powered symptom analysis and lab report interpretation.*
- ***Implemented offline-first support, multilingual NLP (BERT**), and urgency classification using **MLflow**-tracked models.*
- *Securing user data with encryption and ensuring compliance with HIPAA / Indian DPDP laws.*
- *Backend powered by **FastAPI + PostgreSQL,** deployed via Docker & Kubernetes.*

Smart Doc Intelligence | *AWS, Gemini AI, NLP, Document Intelligence*

- *Designed and developed an end-to-end intelligent document analysis system using AWS services (**S3, Textract, DynamoDB, SNS**).*
- *Integrated **Gemini AI** and **GenAI** with **RAG** to generate context-aware summaries and enable natural language Q&A over PDF documents.*
- *Implemented a chat-based interface for users to query document content, enhancing accessibility and usability for students, researchers, and professionals.*
- *Solved real-world challenges by making complex documents searchable and understandable through **AI-driven insights**, while maintaining infrastructure and process documentation.*

Certificates

- *AWS Certified Cloud Practitioner from Amazon Web Services (AWS)*
- *Microsoft Certified: Azure AI Fundamentals*
- *Google Cloud Digital leader*

Achievements

- *Earned a **Junior Rockstar** Award from my Engagement Delivery Lead*
